"Fantastic service! Foody always delivers my orders hot and on time."

Virginia Stamp

"My first time ordering & it was great. I must say they are better than Krave & less pricey."

VirgilKandy Dames

Easy Food Orders

- Challenges:** Foody wants to get in the market in days when there was a hike in the food market.
- Solutions:** We catered Foody with a fully functional app which offers different
- Solutions:** We catered Foody with a fully functional app which offers different restaurants for deliveries which will give them an easy way of food deliveries.
- Impact:** Got a hike in the orders of restaurants associated with foody over more than 60% and foody got daily order deliveries of more than 50-60 orders/restaurant.

On-time Deliveries

- Challenge:** Bahama aims to optimize its delivery operations for maximum efficiency.
- Solution:** We provided Foody with a comprehensive delivery app featuring a driver's application that tracks customer locations and suggests the shortest routes. Additionally, it allows users to monitor their order's real-time location.
- Impact:** Implementing this solution increased Foody customer retention to 80%, enhancing its popularity among both users and drivers due to consistent order assignments.

Treamlined Restaurant and Catalog Management

- Challenge:** Managing a large number of restaurants and offerings on one platform was becoming difficult.
- Solution:** With a powerful dashboard, Foody was able to centrally manage all restaurants, including tasks like updating menus, adjusting opening and closing hours, managing ratings and reviews, processing payments, and more.
- Impact:** In just two months after its launch, the ROI for Foody escalated to 3X.

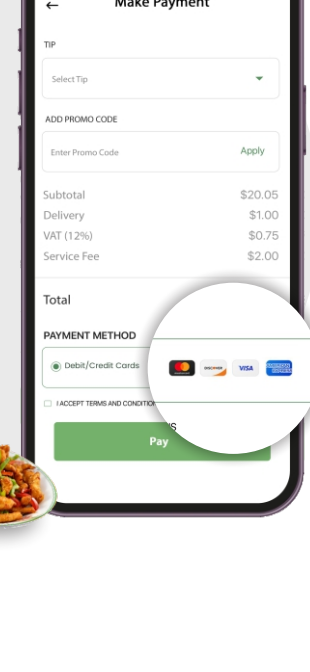

Drawing In A Larger Customer Base Through Localization & Promotional Offers

- Challenge:** As the pioneer food delivery marketplace in Venezuela, Foody aimed to increase customer engagement.
- Solution:** To establish a robust presence and attract a wider audience in the region, we developed a multilingual food marketplace. The app supports multiple languages, including Spanish, English, and several others.
- Impact:** These efforts contributed to Bahama Eats expanding their customer base by 23%.

Effortless Administration & Robust Analytics

- Challenge:** For Foody it was quite challenging to manage orders, drivers, customers, and other aspects all together.
- Solution:** To streamline operations, Cqlsys developed an interactive panel that allows Foody to manage customers, orders, delivery partners, and more from a single window. They also implemented advanced analytics capabilities to monitor key metrics such as total orders and cancellations.
- Impact:** With real-time insights and sales reports, Foody identified better growth opportunities and improved operational efficiency.

Convenient Online Payment and Tracking

- Challenge:** Foody sought a robust solution for managing and tracking all online payments.
- Solution:** Cqlsys integrated various payment gateways such as Paypal, Stripe, Zelle, and others, offering Foody customers the flexibility to pay via wallets and cards. This integration also enabled Foody, their delivery agents, and partner restaurants to track their earnings on a daily, weekly, and monthly basis.
- Impact:** The availability of multiple payment options enhanced customer satisfaction and increased the number of online transactions by 37%.

Delivering Exceptional Experience Via Live Chat and Order Tracking

- Challenge:** Foody aimed to provide their customers with the best possible food ordering experience.
- Solution:** Enhancing customer experience involves facilitating real-time interactions. This was achieved through in-app chat, enabling customers to communicate directly with drivers, restaurants, and Foody. Customers received accurate ETAs for their deliveries and could track agents in real-time using the app.
- Impact:** Foody improved query resolution efficiency, resulting in a 29% reduction in canceled orders.
